

MARBLE

The New Collection

ON THE WALLS

A New Chapter

Greetings from Wallco

With the Lunar New Year celebrated on February 12th, we finally ditched the frenetic Rat for the diligent and reliable Ox. Yes, what can be a better word than “frenetic” to describe 2020’s Year of the Rat with the crazy pandemic ride?

However, as the saying goes, “When the going gets tough, the tough get going”. Moving on to 2021, as we are all settling down with the new normalcy in this post -COVID-19 time, we are also hopeful that the Year of the Metal Ox is going to help us reimagine and rebuild the bigger dreams and goals that were put on hold during the pandemic.

So first up, we will be launching our new wall coating collection - The *MARBLE*! Take a read to find out more!

WHAT’S NEW

A NEW CHAPTER

Wallco is launching our latest Wall Coating collection - The *MARBLE*

MARBLE

Our *MARBLE* collection aims to simulate the natural beauty of polished Marble effect with the finest & highest-grade materials.

PLAYING WITH COLOURS

Bring Marble walls to life with more colour options available.

Marble

Something about Marble

Marble walls, the epitome of grandeur and elegance. Most often associated with the minimalist, modern concept, marble walls possess the magical ability to radically transform and envelope the room in the essence of natural stone.

Another feature of the Marble lies in its versatility. It can be used as an embellishment par excellence, for any space. Be it the living room, bedroom, kitchen, bathroom, hallway, or even major public areas such as shopping malls, hotels and restaurants. There is simply no space that can resist the natural charm of Marble.

While adding Marble stone into your interior can be an expensive commitment, the same effect can now be achieved with our latest wall coating system - *MARBLE*. Our *MARBLE* collection simulates the polished Marble effect using mineral materials and organic compounds that are of the finest and highest quality, surprising you with the lush effect while keeping you in a safe and healthy environment.

Playing with Colours

More than White

In the past, many would probably envision a cold large room encased in white Marble stones, when thinking of Marble as a design element. While Marble may have fallen wayside in the world of interior design just some time back, this classical natural stone is making a modern comeback now, with more than just cold white.

Dreaming of a blue sodalite marble that exudes a mystical charm? Or a red marble that transmits great character and passion to a space? How about a jade green marble that is the perfect combination and bonding of posh and green living? All these options are now possible at a reasonable cost, with our new wall coating system!

Our *MARBLE* collection allows colour customization. Pick a colour from the colour palette and speak to our team today to discuss how we can match it to the closest possible!
